Subject: FW: NTPC approval of Rasi Electrode brands
Dear sir

With reference to your request for NTPC approval of electrode brands, we are pleased to inform that two of your electrode types, i.e., E6013, E7018 have been included in our updated list dated 06/09/2014. This is in line with permanent status of your electrode brands with BHEL (T). Kindly note that NTPC welding consumables list is subject to changes as per prevailing norms from time to time. This is for your information please.

With regards

I Gowrisankar
